PROFESSIONAL SUMMARY

Second-year Computer Science and Engineering student with a 9.29 CGPA and hands-on experience building web applications using React.js, JavaScript, Python, and backend technologies. Developed individual and team projects involving authentication, dashboards, REST API integration, database management, and AI-assisted features. Seeking opportunities to contribute as a Software Developer / Software Engineer.

TECHNICAL SKILLS

Languages	Python, JavaScript, Java, HTML5, CSS3
Frontend	React.js
Backend	Node.js, Express.js, FastAPI, REST APIs
Databases	MongoDB, PostgreSQL, MySQL, Supabase
Tools & Platforms	Git, GitHub, VS Code, Postman, Cloud Computing

INTERNSHIP EXPERIENCE

Web Development Intern | DG Interns Hub
Remote / Online | August 2026 – October 2026

- Developed a Job & Internship Portal with a React.js frontend and backend API integration.
- Built reusable interface components and implemented authentication and protected routes.
- Created dashboard, job search, filtering, and application-tracking features.

PROJECTS

Queue Care – Hospital Token Management System | Team project
Built a hospital queue platform with patient registration, digital token generation, real-time queue management, a nurse dashboard, role-based access, and SMS notifications.
Technologies: React.js, FastAPI, Supabase, SQLAlchemy | GitHub

LearnLumi – AI-Powered Learning Platform | Individual project
Developed a learning platform featuring an AI Tutor, knowledge base, PDF/PPT learning materials, assessments, mastery map, and student dashboard.
Technologies: React.js, Python, FastAPI, SQLite, OpenRouter / LLM integration

DG Job & Internship Portal | Individual project
Implemented user registration and login, job search and filtering, job applications, application tracking, admin job management, JWT authentication, protected routes, pagination, and API integration.
Technologies: React.js, Node.js, Express.js, MongoDB, REST APIs | Live | GitHub

Phoenix – Business Management Portal | Individual project
Created a business portal with admin and manager authentication, role-based access, project creation and management, file uploads, project submissions, and a manager dashboard.
Technologies: React.js, Express.js, Supabase | Live

AICTE Complaint Monitoring and Tracking Dashboard | Team project · Hackathon
Developed a centralized complaint dashboard with assignment and status tracking, AI-based similar complaint detection, Bureau/Cell-wise monitoring, analytics, and reports.
Technologies: React.js, FastAPI, PostgreSQL, Python, NLP / Sentence Transformers | Live

PROJECTS, EDUCATION & ADDITIONAL DETAILS

EDUCATION

B.E. – Computer Science and Engineering
Nehru Institute of Engineering and Technology | Expected Graduation: 2029
Current CGPA: 9.29 / 10 | **Year:** Second Year

Higher Secondary (12th) & SSLC (10th)
Sri Vijay Vidhyalaya Matric Higher Secondary School, Dharmapuri
12th: 87% | **10th:** 90.4%

CERTIFICATION

Introduction to Internet of Things – NPTEL

HACKATHONS & COMPETITIONS

- JCT College Hackathon – Participant
- HackSpark – Participant
- Sakthi Hack Fest – Participant

SOFT SKILLS

Communication | Teamwork

LANGUAGES

Tamil | English

ADDITIONAL INFORMATION

Interested in software development, web technologies, backend systems, and building practical applications. Portfolio and coding profile links are provided in the contact section.
